

Turbo Destainer

A high purity stabilized hypochlorite-based stain remover designed for compatibility with the Textile Care automatic liquid injection supply systems. It acts upon any oxidizable soil. It works most effectively when temperature and pH conditions are controlled in the proper ranges. Can be incorporated into a single operation or a combination of operations to minimize formula time and maximise stain removal. For best results, use with Turbo Detergent, Boost or Revive for better stain penetration.

High performance detergent

Outstanding bleaching & destaining

For commercial laundry machines

Effective in both soft & hard water

Sanitises linen during the wash process

Preset formulas to suit all fabrics

Eliminates tough stains

Automatically full alarmed dispensing

CLEANER. SAFER. HEALTHIER

ECOLAB®

Turbo Destainer

Use Instructions

Turbo Destainer should be used in a properly designed wash formula, in commercial or professional washers, to meet specific needs. Recommendations may vary depending on fabrics, water conditions, machine type etc. Use rate and batch conditions are key for maintaining a low tensile strength loss.

Safety Information

Keep out of reach of children. Wear suitable protective clothing, gloves and safety glasses when handling the product. Do not mix with anything but water. Keep container tightly closed, in a cool and well-ventilated area.
